The Allodial title hereof resolves all marketable titles and deeds (including bifurcated mortgages). In addition, certified sovereignty allows for Allodial title issuance making the individual Lord and/or Lady Sovereign entitling unto their rightful singular birthright as a human being enjoying the privileges/benefits of the land associated with the Allodial title hereof. "As of the Grace by the Sovereign Himself (1 Blackstone's Commentaries 242 Corpus Juris Secundum)" - AGbSH (ag-besh) also is regained in sovereignty and/or the freedom of choice in any matter. When a society uses a physical best evidence medium-of-exchange (money and/or marketable titles), it is best evidence of a contracts law society. Hence, without a written contracted (two signatures) Allodial title, the land and first estate remain in ordained Allodium and if the individual first estate (clay temple – physical body) has no sovereignty certificate, they are a mere non-sovereign without an enacted certificate. Certified sovereignty makes the individual a legal practitioner of his/her privileges (government licences) issued by the proper government created by the trust foundation. Without sovereignty certification, the individual used his/her licences in an illegal manner. The Lord/Lady Sovereign has the privilege of issuing trust foundation written instruments that include Allodial titles (proper original land titles), Plea in Bar and/or Nullification Act (Notice of Dishonour UCc 3-503 - defeating any legal challenge at merit), Letters of credit (money), Law suit (redress of grievance), Liens (tax, land, personal, etc.), Letter of Rogatory (reciprocal response in any issue), and not excluding any other legal instrument including the creation of government, their laws and all necessary entities thereof.
